# ARTHUR L. NORTON

# Nurseryman and Fruit Grower

CLARKSVILLE, Pike County, MISSOURI

Packing House Located Six Blocks from the Chicago, Burlington & Quincy Railway Station

B

EING located eighty-four miles north of St. Louis and along the high lands of the Mississippi river there can be found no better location for producing the very high-

est grade nursery stock, consisting of fruit and ornamental trees, shrubs and berry plants.

## TERMS OF SALE

SHIPPING—The shipping seasons begin about the 1st of March and 1st of October. Parties ordering goods should indicate whether they want it shipped by freight or express, and route. When no instructions are given we forward to the best of our judgment, but are not responsible for delivery of goods after consignment to purchaser.

TERMS—Where parties are unknown to us as to their responsibility, cash or security will be required before shipment unless orders are accompanied with satisfactory reference. Orders sent C. O. D. should be accompanied by<sup>1</sup>/<sub>4</sub> cash.

PRICE—We have made prices as low as should be made for first class nursery stock, and this list supersedes all others and is subjected to change at any time.

CAUTION—All orders are received upon condition that they shall become void, should any injury occur to stock from fire, frost, storm or other causes over which we have no control.

CLAIM—All claims for deductions should be made within six days from receipt of goods.

PACKING—Prices contained herein include cost of boxing and baling, a point which should be considered when placing your order. Freight prepaid on all orders for 10.00 and over.

Certificate of Inspection will accompany each shipment.

GUARANTEE OF GENUINENESS—We exercise the greatest care and diligence in keeping our stock true to label, but it is mutually agreed between ourselves and purchaser that should an error be made and stock prove untrue we will not be responsible for any sum greater than that originally paid for same.

SUBSTITUTION—If we have sold out of any stock upon receipt of order please let vs know if you wish the next best substituted, as we positively will not substitute unless so ordered.

#### **APPLE TREES**-2 year whole root Grafted and Budded

	Each	Per 10	Per 100	Per 1000
No. 1, 5 feet and up, 11-16 inches and up		\$2.75	\$25.00	\$200.00
No. 2. 4 to 5 feet, 5% to 11-16 inches		2.50	22.50	180.00
No. 3, 3 to 4 feet, $\frac{1}{2}$ to $\frac{5}{8}$ inches	25	2.00	18.00	150.00

#### Summer Varieties in Order of Ripening

YELLOW TRANSPARENT-Russian, pale yellow; sub-acid, good shipper.

EARLY HARVEST-Yellow, good size, rich, sub-acid.

RED JUNE-Red, medium size, good quality, abundant bearer.

STRAWBERRY-Conical, red and white striped, good for cooking.

BENONI-Red and light yellow striped; one of the best.

DUCHESS-Red and yellow, oblong, acid, good quality.

MAIDEN'S BLUSH-Pale lemon yellow, blushed, good sub-acid.

TRENTON-Large size, conical, light green, good shipper.

#### Fall and Winter

HUNTSMAN'S FAVORITE-Large, lemon yellow, sprightly acid.

WEALTHY—Medium to large dark red; fine quality, good market. RAMBO—One of the old sorts, light red, speeked, mealy.

ROME BEAUTY—Favorite in all markets; light red, finest quality.

JONATHAN-Dark red, the best for cold storage, quality the best, brings highest price, medium size, very profitable.

GRIMES GOLDEN-Golden Yellow, fine acid flavor, juicy, rich.

BELLEFLOWER-Good old fashion, light green, blushes in sun, very juicy and rich flavor.

MISSOURI PIPPIN-Bright red striped and specks, heavy bearer.

VANDIVER-Good early winter variety, somewhat flat in shape, crisp, sub-acid, shy bearer.

WINE SAP-MEDIUM size, dark red, good rich flavor, abundant bearer.

PRYOR RED-Light yellow, striped with red, an old favorite with many.

WHITE WINTER PEARMAIN-Medium to large with brownish red cheek, mill, sub-acid.

STAYMAN WINE SAP—Much superior to Wine Sap. Larger and better in every way. Good money maker.

BEN DAVIS-Too well known to describe. Not as good as some for eating but one of the best for baking.

GANO—Ben Davis type, darker red; quality about the same. NORTHWESTERN GREENING—Greenish yellow, rich, good quality.

YORK IMPERIAL-Light red, grows somewhat obliquely, good keeper.

OPALESCENT-Very handsome, light red shading to dark crimson. Good quality; long keeper.

NEWTOWN PIPPIN—Greenish vellow, sprightly acid, long keeper.

GENETON-Light red, medium size, juicy with good acid taste. Tree lives to be very old. Good keepers.

BOIKEN-Good size, yellow, tart, acid, long keeper.

MARTHA CRAB—Beautiful, glossy yellow, shaded with bright red.

## PEAR TREES-2 Years Old

No. 1, 5 to 7 feet, $\frac{3}{4}$ inches and up	.40	\$3.50	\$30.00	\$250.00
No. 2, 4 to 5 feet, 5% to 34 inches	.35	3.00	25.00	200.00
No. 3, 3 to 4 feet, $\frac{1}{2}$ to $\frac{5}{8}$ inches	.30	2.50	20.00	175.00
DADET DET Lange wellow buttons inion for flores				

BARTLETT—Large, yellow, buttery, juicy, fine flavor. SECKEL-Small size but very sweet and juicy. Russet brown.

GARBER-Large yellow, globular; good for canning.

DUCHESS-Very large size, greenish brown, sweet. Good market variety, brings highest prices.

KEIGHTLEY—Large size, light green, bell shape, melting, juicy, good quality. The original tree is growing in Clarksville. Last year the period of ripening lasted for over two months.

KIEFFER-Large golden yellow, long keeper, good for canning, eating and one of the best market varieties.

WILDER EARLY-Small bell shaped, sweet and juicy, excellent flavor.

### CHERRY TREES.

		Per	Per	Per
	Each	10	100	1000
No. 1. 4 to 6 feet, 3/4 inches and up	.50	\$4.50	\$40.00	\$350.00
No. 2, 3 to 4 feet, $\frac{5}{8}$ to $\frac{3}{4}$ inches	.45	4.00	35.00	325.00
No. 3. 2 to 3 feet, $\frac{1}{2}$ to $\frac{5}{8}$ inches	.40	3.50	30.00	300.00
WEILOUGH One of the heat only sour variation				

DYEHOUSE—One of the best early sour varieties. EARLY RICHMOND—Light red, medium size, acid, productive.

MONTMORENCY-One of the best market, light red, acid, productive.

OLIVET-Medium size, dark red, acid, good growing trees.

SUDA HARDY-Regular bearer, productive acid, profitable.

MAY DUKE—Large, dark red, sub-acid, good quality. ROTAL DUKE—Large, little lighter red than May Duke, about the same in quality and acidity.

GOV. WOOD-Large, light red, juicy, rich, delicious.

BING—Large, dark, sweet and delicious. One of the best new varieties. BLACK TARTARIAN—Tree erect grower—Fruit large purplish black. One of the old stand-bys.

## PEACH TREES

No. 1, 5 to 7 feet, 3/4 inches and up	.25	\$2.00	\$17.50	\$150.00
No. 2, 5 to 7 feet, 3/4 inches	.20	1.75	15.00	125.00
No. 3, 3 to 4 feet, $\frac{1}{2}$ to $\frac{5}{8}$ inches	.15	1.25	10.00	80.00

SNEED- (SC)-White, early and good.

TRIUMPH (SC)-Dark red, yellow meat, semi-cling when thoroughly ripe.

MAMIE ROSS (F)-Creamy white, red cheek, juicy and good quality.

MOUNTAIN ROSE (F)-Large, round, white, extra good for eating.

ALTON (F)—Large, white, juicy and rich flavor; tree hardy. CRAWFORD'S EARLY (F)—Large, yellow, red cheek, shy bearer but good quality. BELLE OF GEORGIA (F)—Large, round, creamy white, fine flavor, juicy, red cheek. ELBERTA (F)-The best shipping peach, yellow, oblong, red cheek, good but not the best flavor as compared with some of the preceding.

('RAWFORD'S LATE (F)-A very handsome yellow, juicy, rich flavored peach. Prolific and profitable.

LEMON FREE (F)-Similar to Crawford's Late. Lemon color with red cheek where exposed to the sun.

ORANGE (F)-Golden yellow, large to medium, sweet and juicy.

CROSBY (F)-Very hardy, abundant bearer, medium size, somewhat red at seed.

WHITE HEATH (CL)-One of the best cling stone peaches, abundant bearer, white, with red cheek where exposed to the sun. Fine flavor, rich and juicy.

SALWAY (F)-Medium size, late, yellow, inclined to be a little lacking in juice but of good quality and good for late use.

KRUMMEL'S OCTOBER (F)-Fine late peach, yellow and rich fine flavor. Keeps well.

MARTHA (CL)—We believe this is the largest and handsomest peach in existence. The original tree is a chance seedling which Mr. Ed. Fern of this city dug out of his neighbor's yard. The tree is on a poor, blue clay sub-soil. The fruit runs uniformly large. Specimens have weighed 17½ ounces. Flanted in good soil the results will probably be still greater. It is very hardy, bearing when other varieties fail. Form globular, color white with bright red check, flesh firm, of excellent quality, and ripens here about the first week in October. We have not tested this peach, only from the original tree, but from its hardiness here we believe it will succeed anywhere that peaches can be grown. 40c each; \$3.50 per 10; \$30.00 per 100.

F denotes free-stone; Cl Cling; SC semi-cling.

#### PLUM TREES

	Each	10	100
No. 1, 5 to 7 feet	.40	\$3.50	\$32.50
No. 2, 4 to 5 feet	.35	3.25	30.00
No. 3, 3 to 4 feet	.30	3.00	27.50
ABUNDANCE-Large, red, sweet, prolific.			

AMERICA-Light red, good size, prolific.

RED JUNE-Medium to large size, bright red, very handsome.

BURBANK-Mottled, red and yellow meat.

WICKSON-Very large, russet red.

WILD GOOSE-Bright red, juicy, sweet. American variety.

GREEN GAGE-One of the best for pies, puddings and canning.

LARCH, European—Pyramidal habit, resembles evergreen in summer 5 to 6	.45	4.00	35.00
LINDEN, American-Large leaves, rapid growing 4 to 6	.40	3.50	30.00
LINDEN, European—Pyramidal growth, fragrant flowers	.80	7.50	65.00
MOUNTAIN ASH-Fern like leaves, red berries 6 to 9	.50	4.50	40.00
MAIDEN HAIR, Salisburia—Medium sized tree with fern-like foilage	.60	5.50	50.00
MAPLE, Japanese—Small trees, peculiarly cut leaves of different colors 1 to 3	1.25	10.00	90.00
MAPLE, Norway-The most handsome of all	.85	8.00	75.00
deciduous trees; dark gre∈n leaves, round top 6 to 9 MAPLE, Sugar—Pyramidal form, brilliant foilage			
in autumn; very hardy 6 to 8 MAPLE, Sycamore Leaf—Strong upright grower 5 to 6	$.40 \\ .35$	$3.50 \\ 3.00$	$30.00 \\ 25.00$
MAPLE, Schwedlers—Similar to Norway except that it has purple leaves early in the spring 4 to 5	.75	7.00	65.00
MAPLE, Wier's Cutleaved-Rapid grower, finely cut			
leaves	.40	3.50	30.00
very popular	.40	3.50	30.00
flowers yellow and purple 4 to 5	1.00	9.00	95.00
MAGNOLIA, Conspicua—Flowers white, elegant 1 to 2	$1.00 \\ 2.00$	9.00	75.00
MACNOLIA, Soulangeana—Flowers white and purple 2 to 3 MAGNOLIA, Speciosa—One of the hardiest of the		15.00	125.00
oriental varieties	2.50	20.00	175.00
them to cherries, plant some	.50	4.50	40.00
for formal effects, 2 year heads	2.25	20.00	175.00
PEA TREE, Siberian—Yellow Flowers, fern leaf 4 to 5 PLANE, American—Trees grow to be immense size,	.40	3.50	30.00
white bark, heart shaped leaves 6 to 8	.50	4.50	40.00
PLANE, Oriental—Similar to American but leaves are more cut. Very popular for avenues	.50	4.50	40.00
POPLAR, Carolina—Rapid grower, good for streets10 to 12	.50	4.50	40.00
POPLAR, Lombardy—Upright grower; very useful to break monotonous effects 10 to 12	.50	4.50	40.00
PAULOWNIA or Empress—Odd looking, large leav€s, flow€rs purplish panicles	1.50	12.50	100.00
PIN OAK-Very popular for street planting;			
brilliant in fall	.50	4.50	40.00
tiful leav€s in autumn, bark resembles cork 2 to 3 WALNUT, English—Not so hardy as some but produces	.50	4.50	40.00
fine nuts where the climate is not too severe 3 to 4 WALNUT JAPAN, Sieboldi—Very hardy, young and	.40	3.50	30.00
good bearer. Nuts of fine quality	.50	4.50	40.00
it good for winter decoration	.25	2.00	20.00
WILLOW, Weeping—One of the best weeping trees. Lends much to the landscape when planted			
around lakes, ponds and watering places 4 to 5 For grades larger than above add 10 per cent or de	.25 duct 5.	2.00 per cfnt	20.00
for grades smaller allowing 1 to 2 feet to eac

## MISCELLANEOUS

PEONIES—White, red and pink	.35	3.00
RHUBARB—Myatts Linneaus		
ASPARAGUS—Conovers Colossal 1 doz—25 cents	100 for	1.25
BARR'S MAMMOTH1 doz-25 cents	100 for	1.25

**Clarksville Piker Power Print** 

The original tree is a chance seedling which Mr. Ed Fern of this city dug out of his neighbor's yard. The tree is on a poor, blue clay sub-soil, The fruit runs uniformly large. Specimens have weighed 17½ ounces. Planted in good soil the results will probably be still greater. It is very hardy, bearing when other varieties fail. Form globular, color white with bright red cheek, flesh firm, of excellent quality, clingstone, and ripens here about the first week in October. From its hardiness here we believe it will succeed anywhere that peaches can be grown.

ARTHUR L. NORTON NURSERYMAN AND FRUIT GROWER CLARKSVILLE, MO.
